The dovetailed drawers operated smoothly on epoxy coated steel glides with nylon bearings. The top is 1" black epoxy resin. Unit includes one multiservice fixture, GFI protected AC duplex receptacle, polypropylene trap, Greenlaw Arm, a pull out writing board and locks for cupboard and all four drawers. 60"L x 30"D x 36"H.

DV-1216K-L Each . . . \$2795.00

## Your Choice of Table Top Surfaces

### Plastic Laminate Top

**GOOD**

1.25" ARP high pressure laminate is widely used for student science and art tables. It offers an excellent work surface that wears exceptionally well under normal use. Plastic laminate has superior resistance to scratching, with limited resistance to high temperature and severe chemicals. Color: Black.

### ChemGuard™ Top

**BETTER**

ChemGuard™ incorporates the decorative features of high pressure laminate into a durable, chemical resistant surfacing material. Tests prove that ChemGuard™ has outstanding chemical resistance, plus significantly better NEMA wear value than competitive laminated. ChemGuard™ even has a Class 1 fire rating. Color: Black.

### Epoxy Resin Top

**BEST**

1" solid Epoxy Resin is impervious to normal laboratory chemicals and heat. Its monolithic composition eliminates the possibility of swelling, delamination, and exposure of the substrate. It is extremely durable and completely impervious to moisture. Color: Black.

*More sizes & options available - call for information*
